AT A GLANCE

QUALITY CONSTRUCTION

Built with mortise and tenon joint construction. All wood material is kiln dried and complies with the California Code of Regulations meeting the requirements of the Airborne Toxic Control Measure to reduce formaldehyde emissions.

SOLID WOOD BASES

All of our desk chairs come with a steel frame, wood covered base. These bases are very durable and never experience caster tear out.

QUALITY FINISHING

Chairs are stained and finished to protect the wood. Stain is applied using a spray gun for even application then hand rubbed to remove excess. After a light sanding to smooth out any raised grain, each chair receives a finish coat which provides a durable surface that resists stains and scratches.

QUALITY UPHOLSTERING

Seating foam is 2.4lb density and is considered the highest quality foam available in the furniture industry. Fabric or leather is hand cut and then applied on top of the foam. Each chair is hand assembled, resulting in the highest level of quality control.

QUALITY CRAFTSMANSHIP

CHOOSE YOUR WOOD SPECIES

A: Red Oak B: Cherry C: Quartersawn White Oak
D: Brown Maple E: Elm F: Walnut G: Hickory

Stain color will vary in appearance depending on wood species selected.

CHOOSE YOUR NAILHEAD TRIM

G: Black H: Pewter Zinc I: Z Finish (Standard for Mission Styles) J: French Natural K: Pewter Nickel L: Oxford Hammered M: Natural

CHOOSE YOUR UPHOLSTERY

Available in fabric and leather. Fabric/leather can be selected from sample books for Buckeye Fabrics, Heartland Fabrics, Quality Fabrications, Weavers Upholstery and Buckeye Rockers Leather. You are always welcome to provide your own material. Customize your chair with laser engraving or embroidery. FREE leather conditioner with leather chair purchase.

CHOOSE YOUR FINISH

Buckeye Rockers offers a wide selection of stain choices. Finishes can be selected from Ohio Certified Stains (OCS), Premier Finishes (Finish Works), and BI-CO Speciality Finishes. You are welcome to bring us your finish sample and we will do our best to match it.

THE NATURE OF WOOD AND ITS ENVIRONMENT

All hardwood contains variation in its color and grain. In manufacturing and finishing its chairs, Buckeye Rockers strives to bring out the natural beauty and character of each slab of wood. These wood characteristics give each piece of solid wood furniture its own unique charm. Although the finishing processes are identical, no two items will be exactly the same.

Because most hardwoods are open grained, solid wood furniture will expand and contract with changes in humidity and temperature, even after protective finishes have been applied. Care in controlling the furniture's environment will help minimize the minor cracking and warping that is a natural part of the wood's character. Indoor humidity should be kept in the 35 to 40 percent range to minimize these effects. If the humidity moves out of the ideal range, solid wood chairs can expand and contract causing a gap in the joints. This is perfectly normal as moisture is absorbed through end grains of wood thus causing more movement at the joints than in the center. With the seasons, these changes will occur according to humidity levels. Additionally, direct sunlight and fluorescent lighting that contain ultraviolet rays can cause chemical changes in the wood and finish and should be avoided. Furniture should also be kept away from direct sources of heating and cooling and out of attic or basement storage environments.

With proper care, solid wood furniture will provide a lifetime of enjoyment and can be passed on to future generations.

HARDWOODS

Mature hardwoods supply the nation, and much of the world, with timber used for everything from railroad ties to quality furnishings. U.S. Hardwoods are coveted the world over for their warmth and lasting beauty in furniture, cabinetry, millwork and flooring. In finished products, hardwoods are the purest expression of nature. They are not synthetic nor are they engineered. Their beauty is not just skin deep. And thanks to responsible stewardship of America's hardwood forestland, their supply is abundant and perpetually renewing.

Hardwoods are broad-leafed trees such as oak and walnut, cherry and maple, hickory and poplar and dozens of other species. Each autumn their green leaves burst into brilliant symphonies of amber, orange, magenta and thousands of hues in between. Hardwoods grow prolifically, reaching maturity at about 80 years of age. When harvested, they often begin a second life as home furnishings that we can cherish for generations. Just as each tree is different from the next, so too, are hardwood products individually unique.

Hardwoods are characterized by an infinite variety of grains and distinctive textures. Trees grow limbs that fall off as the tree matures; what remains, is a knot on the hardwood surface. These natural markings add character to the wood's appearance and have absolutely no effect on the wood's durability and stability.

POLICIES & INFORMATION

INTERNET POLICY

Dear Valued Customer,

Buckeye Rockers considers each of you as valued business partners. Every partner has his own niche on how to promote, advertise and sell our high-end products. Business strategies change over time and we encourage all of our customers to follow what works best for them to get more business. Occasionally there is some dissatisfaction from customers that have store fronts versus customers that sell product on the internet for prices that we consider too low.

A key component for the success of Buckeye Rockers has been a good presentation of our products and a corresponding sales approach that provides the customer with all of the information necessary to make a truly informed purchase decision. We have always believed that an essential ingredient of our success is the personal interaction between well-trained sales personnel and the retail consumer.

An integral part of ensuring consumer satisfaction is prompt and responsible warranty service. If our products are sold through the internet to locations remote from that of the actual dealer, the quality of such follow-up service can be inadequate and our image with the consumer could be damaged. It is the dealer's responsibility to take care of such warranty issues.

In light of all the factors stated above, it is our preference that our product is sold in a retail store. However, because of having responsible dealers who will sell on the internet at fair prices, we feel we cannot ban internet sales.

Therefore, we will require our dealers who advertise our products on the internet to have no less than a 100% markup (example: \$500 x 100% markup = \$1,000) on their finished product cost. Thank you for accepting this responsibility and for joining our team.

Sincerely,

BuckeyeRockers

BUCKEYE ROCKERS GUARANTEE

We want you to be happy! You may return new, unused and resalable items within 30 days of delivery date for a money-back refund; customized items may not be returned. We will pay the return shipping costs if the return is a result of our error. Please contact us within 30 days of delivery if this is the case. We guarantee all of our products against workmanship defects or problems for one year. As you enjoy our products we will consider that using them will create normal wear rather than defects in workmanship.. After one year, we will repair your product at a very reasonable rate.

POLICIES & INFORMATION

COMPANY HISTORY AND ACKNOWLEDGMENTS

In 1994, founder Mose Hershberger started working for a local chair company to learn the trade of a woodworker craftsman. A year later, in 1995, Mose started his own woodworking shop making chair parts and canes for other woodshops.

The seeds of Buckeye Rocker began in 1997 when Mose bought a small local seating company that had six existing seating products. Thus the journey began with a vision to nourish, develop and grow this infant company.

Today, the company has seen 21 years of growth and has designed and developed more than 65 heirloom quality hardwood seating products that are available in this catalog.

In 2016, Mose retired leaving a legacy for the next generation. Second generation craftsman Dennis Hershberger and David Miller humbly accept the role of Co-Owners.

MEET THE PEOPLE AT BUCKEYE ROCKERS

When buying or shipping a chair or product, there is the standard communication between you, the customer, and the sales or accounting team.....but, there is more involved. There are many steps involved in building a chair or product. Buckeye Rockers considers each step important and wants you to meet the fine people that are in our company.
