The image is a composite. The left half features a photograph of a large, two-story red barn with a gambrel roof, showing signs of age and weathering. In the foreground, a rustic wooden dining table and four chairs are set on a green lawn. The right half of the image is a light blue overlay containing text.

## *The Barnwood Story*

Scattered across America in various levels of disrepair, stand sentinels of our agricultural and industrial past. Beneath the decrepit facades of these decaying barns and wooden buildings, left to waste away, lies treasure hidden beneath the ugly surface. **Solid Oak Lumber.** Chosen because of its superior strength, workability and long lasting qualities much of this lumber is still very sound, although much of it is over 100 years old. While very solid, years of exposure to wear, insects, and the elements have left its mark behind. Nail holes, worm tunnels, and discolorations give a uniqueness of character impossible to replicate. Each piece has a character unique to its own, all the while delivered in a design that's solidly built ensuring pleasure from its presence and use in your home for years to come!

*Here's to a future enjoying the past!*
