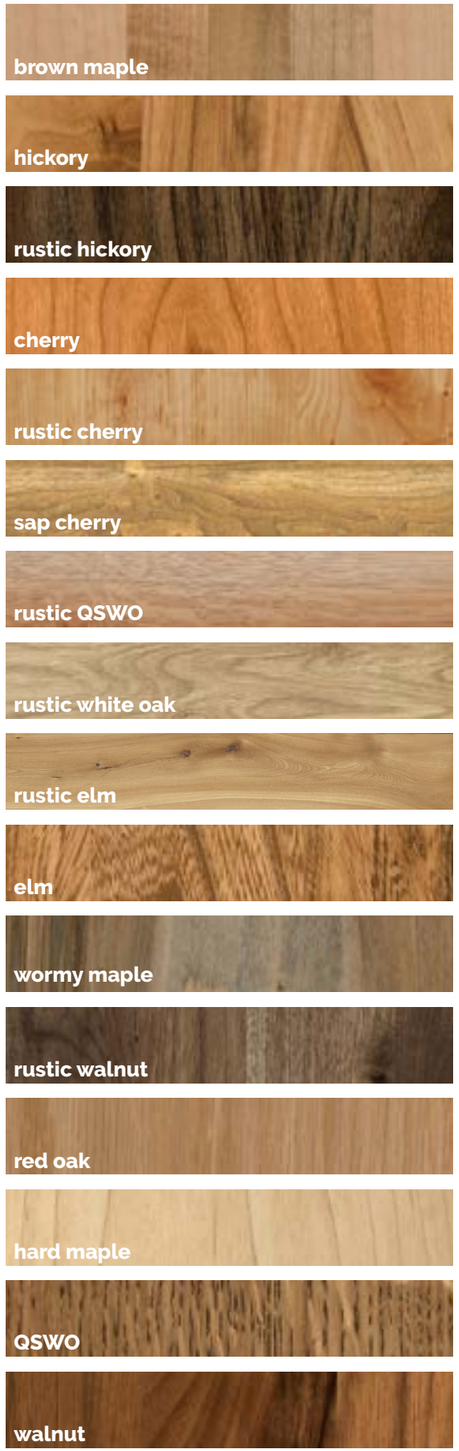
create a vision.

The details in a home matter and the use and design of occasional pieces can often be overlooked when decorating a home. Though these pieces may not be focal points in the average household, they still serve great purposes and should work together to create an overall look and atmosphere to your home. Here at Blu Furniture, we offer a large collection of occasional tables made to fit numerous style types. Though we focus on hardwood products, we do use plywood in some items where expansion is critical. For all of those spaces you are looking to fill in your home, we've got a table for you with custom sizing available.



wood species

Why stay within the realm of "normal" when you have so many options to choose from? Step outside the box with a large variety of wood species. We give you anything from simple and easy, to one-of-a-kind. Whether your looking to tone down your room or elevate it, we've got you covered.

*Please refer to our pricelist for available wood species pricing.

stains

When it comes to furniture, we believe everyone deserves the opportunity to create something specific to them. That's why we offer hundreds of stain options for you to choose from, so you'll always be guaranteed the style that perfectly reflects you.
