The BARNWOOD *Story*

Scattered across America in various levels of disrepair, stand sentinals of our agricultural and industrial past. Beneath the decrepit facades of these decaying barns and wooden buildings, left to waste away, lies treasure hidden beneath the ugly surface.

Solid Oak Lumber!

Chosen because of it's superior strength, workability and long lasting qualities; this lumber is still very sound, although some of it is over 100 years old. While very solid, years of exposure to wear, insects, and the elements have left it's mark behind. Worm tunnels, nail holes, and discolorations give a uniqueness of character impossible to replicate. Each piece has a character unique to it's own, all the while delivered in a design that's solidly built, ensuring pleasure from it's presence and use in your home for years to come!

In addition to reclaimed lumber we also offer all our pieces in sustainably harvested oak and maple hardwoods. This wood is offered in a rough sawn finish that emulates the rough character lines of reclaimed lumber without the excess weathering and deformities of reclaimed lumber.
