

# The Craftsman

COLLECTION

Quality Handcrafted in Pennsylvania, USA

# MISSION

As the Spanish swept across the southwest corner of North America they built furniture out of necessity. Today their simple style still resonates with seekers of simplicity and functional beauty. The sturdy lines of this revival style paired with the finest of American hardwoods complements the craftsmanship and comfort of Craftsman Collection Mission.

#84  
MORRIS CHAIR  
34" w x 35" d x 37" h\*  
shown in Rum leather

Morris chairs feature an 8 position recline.

Based on a design found in a small cabinetry shop in Sussex, England, the Morris Chair was developed and first sold by Morris and Company around 1866. Through the influence of Gustav Stickley and the American Arts and Crafts movement, the American Morris chair took on an unsophisticated air of sturdy reliability.

Our rendition of this faithful old chair features an eight position recline, gently curved armrests, and the same legacy of durable comfort.

#86

Bustle Back Upgrade

#61  
**RECLINER**  
34" w x 35" d x 42" h\*  
shown in whiskey leather

From the legs to the last detail of the upholstery we take extra pleasure in creating exceptional recliners. The easy push-back mechanism is made in America and is built to handle all the wear that a comfortable recliner is prone to get. Each section of the loveseat and sofa recliners reclines independently.

Powered recliner upgrades come with a standard corded control that can be exchanged for cordless remote controls.

The Bustle Back upgrade option gives the recliner a soft cushion feel without losing its beauty.

What will you create?

When we set out to create a wall hugger recliner we approached it with a no-holds barred attitude. This resulted in a recliner that is not only a true wall hugger but also totally modular, letting you create custom configurations that fit your needs.

The armrests, reclining seat, stationary seat, and corner unit connect securely using our special coupling system. Reclining units are functional no matter where they are located in the configuration. The ZeroWall modular system is available with power recline and bustle back upgrades.

# MISSION

*What will you create?*

#16  
**RIGHT ARM UNIT**  
right and left arm units are sold as a set

#17  
**MODULAR UNIT**

#15  
**CORNER UNIT**

#16  
**LEFT ARM UNIT**  
right and left arm units are sold as a set

**Vari-LOC** Sectional Seating

The Vari-Loc sectional seating allows you to create multiple configurations from four simple base units. Each unit locks securely to the next to form a solid and seamless sectional sofa. And when it's time to move, your sectional will easily disassemble into manageable pieces.

CLUB SOFA  
78" w x 35" d x 30" h\*

Back View

This heritage take on the sofa is deeply rooted in mission style. The low profile makes the club a great option when you want to maintain an open feel or when placing it in front of a window. All fabric seat and back cushions come in one unit, as seen on the loveseat, unless special ordered. Leather cushions will be divided, two sections for loveseats, three sections for sofas.

# MISSION

\* all seats are approximately 19" high and 20" deep

# Santa Fe

With their clean, open silhouettes the Santa Fe occasional portray an exceptionally pure mission and pair well with our Classic Mission and Panel Mission upholstery.

# Wood Species

Every piece of furniture is produced with sustainably harvested American hardwoods which means that every tree that is cut down has a replacement sapling that is growing, sequestering carbon, and releasing oxygen. Instead of deforesting, our lumbermen are pruning and refining our wonderful resource, the forest.

**R**ed Oak is a hardwood prized for its hardness. The grain pattern is large and often stains darker showing the character of the oak and making each item a unique masterpiece.

**M**aple has a tight grain pattern and finishes with a smooth, hard surface. It is the ideal choice when pairing with paints or gray based stains.

**C**herry's rich tones give a full bodied look to reddish stains. The grain pattern is similar to maple. Cherry stains often appear deeper and richer as they age.

**Q**uarter-Sawn White Oak can be identified by its unique ray flake grain. To create quarter-sawn wood, the log is first quartered and then cut perpendicular to the growth rings. This results in a very straight, fine-grained surface.

To make the most of that distinction, we use quad-linear posts for the legs of our upholstered mission furniture. Usually, a leg post is created from a 3"x3" board. But with that approach, only two sides of the leg display the uniqueness of the ray flake grain. To overcome this obstacle, we cut four triangular pieces from our quarter-sawn wood, then glue them together, producing a leg of incredible strength, but most importantly, a leg that displays the beauty of the ray flake grain on all four sides.

Quarter-Sawn Log

Quad-Linear Post

# GENERAL WARRANTY AND CARE

The Craftsman Collection warrants to you, the original retail purchaser, ten year protection against manufacturing defects of any wooden components. Defective parts will be repaired or replaced at our discretion.

Wood is a natural product, and although we take great care to match grain and colors, some variation may occur.

With some care your furniture will last for years! Keeping it dust free is very important. Use a soft towel dampened with water or a quality furniture polish to remove the dust. Do not use a silicone based furniture polish!

Natural wood will expand and contract with the seasons. This is normal, but it is important to avoid extremes in humidity and temperatures. Avoid having furniture in direct sunlight, close to heat sources, or in extremely damp or dry environments.

All warranties are void if the recommended care displayed above was not exercised.

## UPHOLSTERY WARRANTY

**Springs and Recliner Mechanisms:** The Craftsman Collection warrants to you, the original retail purchaser, ten year protection against manufacturing defects of the springs and recliner mechanisms. Electrical components of power recliners carry a two year warranty.

**Glider Bearings:** (250 lb. load rating) The Craftsman Collection warrants to you, the original retail purchaser, a three year warranty. If found to be defective, we will replace the defective bearing or bearings.

**Seat and Back Cushions:** The Craftsman Collection warrants to you, the original retail purchaser, ten year protection against manufacturing defects of seat and back cushions. Cushion warranty is for loss of cushion resiliency and not normal flattening and softening of cushions, which is a result of regular use and aging and should not be considered a manufacturing defect. If found defective, cushions will be replaced free of charge. After 2 years we will not be liable for freight.

Cushion softness is significantly affected by the type of fabric or leather that surrounds it. Where applicable, a rotation of the cushion will greatly extend the life of both the cushion and fabric.

**Fabric:** We offer a one year warranty against unusual wear of fabric under normal use and with proper care. This warranty does not cover fading, pilling, or crushing of fibers which can occur with the normal use of some fabrics. All claims within warranty will be submitted for industry testing. We will tender warranty only if it is determined to be an actual fabric defect.

**Genuine Leather:** We offer a three year warranty against unusual wear of leather under normal use and proper care. Genuine leather may be one of the most durable upholstery materials; however, even the best quality leather has flaws and natural markings. Our leather is a protected aniline dyed, top grain leather, making for easy cleanup. (A soft damp cloth is recommended.) However, body oils and dust, etc., will cause this leather to develop a natural patina as it is used, especially in light colored leathers. Slight variations of color, along with the above traits, are characteristic of genuine leathers and distinguish them from synthetic materials. If uniform color and consistent grain are required, a faux leather (vinyl) may be a better choice.

Any of the above warranties are void if it is determined that the furniture was abused, used by pets, or heavily soiled.

For more than 28 years we have been designing and building furniture for the Craftsman Collection brand. Currently we employ the fourth generation of family woodworkers.

Every piece of furniture is produced with sustainably harvested American hardwoods which means that every tree that is cut down has a replacement sapling that is growing, sequestering carbon, and releasing oxygen. Instead of deforesting, our lumbermen are pruning and refining our wonderful resource, the forest.

During the last 15 years we have added a large variety of motion and upholstered furniture. Today we are happy to say that 100% of our steel mechanisms are designed and manufactured in America. The foam cushions are made in North Carolina and then carefully upholstered in our own shops by highly skilled seamstresses and upholsterers.

For maximum control of quality our furniture is stained and coated with a conversion varnish in our own finishing facility. The finish products have been tested extensively and we are confident that they will preserve the wooden surface of your furniture for years.

With passion for good furniture and skilled craftsmen we feel confident that your furniture is built to last. That's the reason we offer our industry leading warranties.
